In 2015, the WI Department of Justice was awarded \$4 million dollars, from the U.S. Bureau of Justice Assistance and the District Attorney's Office of New York, to address the 6,000 un-submitted sexual assault kits in the state. Since that time, a massive statewide inventory of the un-submitted kits has been completed and kit testing has begun. This webinar will provide a comprehensive update on WI's Sexual Assault Kit Initiative (SAKI) activities, including victim reporting options, survivor outreach efforts, and why your SART is an important part of the SAKI process.
